SKIN-LOVING STEPS

1. Hyaluronic Acid Serum

After washing/cleansing your face, while it is still damp... drop a few drops of Hyaluronic Acid onto your palm and smooth all over face and neck. Always shake Hyaluronic acid before use. It is an emulsion so will separate when it stands.

2. Vitamin C Serum

Once Hyaluronic Acid Serum is fully absorbed. Drop 2 - 3 drops of Vit C Serum into your palm and apply all over face. Again; always shake Vitamin C before use. Keep refrigerated to extend the life of the product.

3. Niacinamide Moisturiser

Once Vitamin C Serum is absorbed - use a very small amount of Niacinamide moisturiser and massage in an upward motion all over face and neck. Ideal for Daytime!

OR

3. Frankincense & Myrrh Serum

Once Vitamin C Serum is absorbed, drop 3 or 4 drops into your palm and massage in an upward motion all over the face and neck. Day or Night, but it takes a while to absorb. Great to use with an EMS device.

OR

3. Rosehip & Vitamin E Moisturiser

This is best used for night repair. After Vitamin C Serum is absorbed, use a little Rosehip Moisturiser and massage into face and neck. Deeply moisturising!

We have many beautiful offerings, but these are our 'go-to', everyday essentials.
